WEDNESDAY MORNING, MAY 9. Country Merchants

CHOURT COURT.—There was not much usiness transacted in this court yes-arday. After calling over a few of the sees on the docket, the court adjourned. The abort session was in the main owing to the sickness of a child of A. B. Caldwell, the Prosecuting Attorney, who on this account was unable to appear in the court-room and attend to the commonwealth cases. The regular morning session will commence again this morning at 10% o'clock.

NATURALIZED.—There was only one person naturalized by the Circuit Court yesterday, namely (take a long breath): Antonius Monasteus De Fleagher. We are not informed how long the Clerk was in writing out this name, but we judge he must have found it an awful piece of epistolary labor. If there is as much of the Teutonic in his character as there is in his name, we are in favor of an extension of the naturalization laws.

The Steubenville Herald copies our notice of Messrs. Hull & Wheat's Brick Machine, and in commenting on it Machine, and in commenting on it says:

"Why does not some one interested in the brick making business, in this city, purchase and put in operation a machine for the manufacture of brick? The great drawback to building appears to be just now, the price of brick, which could be greatly reduced by bringing machinery into requisition."

Police Court.—There were only two
ases tried in this Court yesterday.
Francis Doton, for selling liquor on
unday, was fined ten dollars and costs.

PLASTIC SLATE FOR ROOFING .- Thos PLASTIC SLATE FOR ROOFING.—Those interested in cheap and durable roofs would do well to examine the merits of this material. It will not run by heat nor crack by cold, while it is suitable for every kind of roof, with the advantage of being fire-proof. As a plastic or paint its use is various—for roofs or bottoms of bouts for bridges, sisterns, dc. Those interested are invited to examine the slate roof or call for information at the Sherman House, Bridgeport, Ohio, or send by letter.

THE FENIANS.—What have become of THE FENIARS.—What have become of the Wheeling Fenians? An important question, but one which we confess our inability to satisfactorily answer. Yesterday indeed we did behold the circle moving down street under the protecting shade of a cotton umbrella, but that still leaves the interrogatory unanswered, for where it went to, we are totally unable to say? The surplus greenbacks which the circle in this city invested in the O'Mahony bank, has proved to be a bad investment. The bank has suspended—the directors in colleague with the President of the institution aforesaid have "agreed to distitute of the control of the circle of the circle of the colleague with the President of the institution aforesaid have "agreed to disfastive occasion bearing a Strong shrillarity to the purilistic demonstrations of Donnybrook Fair. Altogether, things took kind of dubtous. We shall look for future developments with considerable interest.

Bearn of RESERVATION—A general major of the seed of those who have for years been selling the article. We can only recommend those of our readers who are curious in such matters to call at the wareroom of Mr. Metcalf and aximins the hinges for themselves.

Beard of Registration.—A general ampression, prevails that the registration books were closed on yesterday evening. This is a mistake, as we are misormed by competent anthority, and the books will be kept open until fo-morrow evening, that being, however, the list day of grace. Suppense were said if yesterday for the appearance of parties against whom charges have been preferred, as well as for the appearance of mistrees to give testimony, and those cases will be disposed of on and after to-morrow, the 10th inst. There have as yet been no names struck from the books of the Registrars, though their have been a few erased from the tist. Nothing definite in regard to the qualification of doubtful persons now registered on the books can be determined There was abut the channel of the ch

WHEELING HINGE COMPANY,-The WHEELING HINGE COMPANY.—The City of Wheeling grows in wealth and population day by day. We doubt if any city in the country presents an instance of a steadier or more healthful progress. We have no excitements—no spasms—no fitful onsets and backsets—but an even, steady goaheadativeness all the time, the year round. Our manufactured articles are among the most reputable of their kind in the country. No nall in the market sells so easily or stands so high as the Wheeling nall. And so of our glass, our paper, our leather, our wagons and carriages, our tacks, our iron manufactured products in all their variety, our ale, our lager to the and of a long

BOARD OF TRADE.—We learn that Col. Wilkinson, who has for some time past been acting as Secretary to the Board of Trade in this city, has resigned that position, other duties preventing his devoting his time in that capacity. Mr. Wilkinson has contributed very materially to the organization and prosperity of the Board, and his retirement from the secretaryship will be regretted by his many friends in this vicinity. Mr. J. Creary, of this city, assumes the vacated position.
